The only explanation behind Oracle's silence would be the complicity between Oracle and SAP... Oracle paid by SAP to stay quiet...

Hi Bob,

From SAP Lawyers to the SAP Board (in attachment). Page 1, 2 of 400.
I am certain that Larry (and Mark) will understand very well that... tomorrow is now.

There are two kinds of lawyers around the economic crime by SAP. The ones who organized the action and who are protecting the crime, and those who are fighting against the fraud.

Looking forward speaking with Mark (or Larry). Before the story goes public.

Best regards,
C.Olsen
