Mr. Boies,

I always thought of you as great lawyer and a great man.
I think I might have been wrong about you.
What a great disappointment that would be.

Worldwide Economic Crime by SAP and Partners... (in attachment, and on my website).
An unprecedented case.
It could have been the case of a lifetime; the coronation of your exceptional career.

No, it is not mission impossible to find a lawyer who is not afraid to face this case.
I would have liked to see you in that role.
It will have to be someone else.
Such a shame.

Kind regards,
Caroline Olsen
