To the members of the Swiss Federal Government,

You have been elected to respect, listen to, serve and protect the citizens of Switzerland.

A mother and daughter who, having been betrayed by the authorities of Switzerland (their home country), are living in exile since 2014.

This you know.

The world knows it too, despite the silence imposed on the media.

Those who follow in John F. Kennedy's footsteps know it too.

> A Swiss Refugee [studiometamorphoses.com/2016/05/gratitude/](http://studiometamorphoses.com/2016/05/gratitude/)

You can no longer claim that our situation is imaginary or that it is not a state affair.

As of November 2016, the tides have turned.

During the last two years, I had the chance to discover why the SAP Criminal Minds have been targeting me, my family and my life, and why the Swiss authorities violated the Constitution to help them do so.

The evidence is there - all of it.

Justice is on its way back.

You will be accused of complicity with the pedo-satanic elite related to the SAP Saga – the same criminals who robbed us of our right to live.

You will be held accountable for your actions – in front of the Swiss nation and beyond, wherever the story goes.

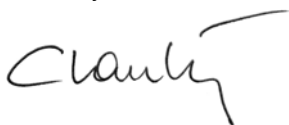

In February 2016, I made a promise to Didier Burkhalter: "I will have the courage that you lack."

> Trahison [studiometamorphoses.com/2016/02/la-trahison/](http://studiometamorphoses.com/2016/02/la-trahison/)

I have vowed to fulfil that promise ever since.

So help me God.

Sincerely,

PS: This "[SAP-Projekt des Bundes wird massiv teurer](#)" is part of our story.  
We will come back to it, this time in front of the nation.
